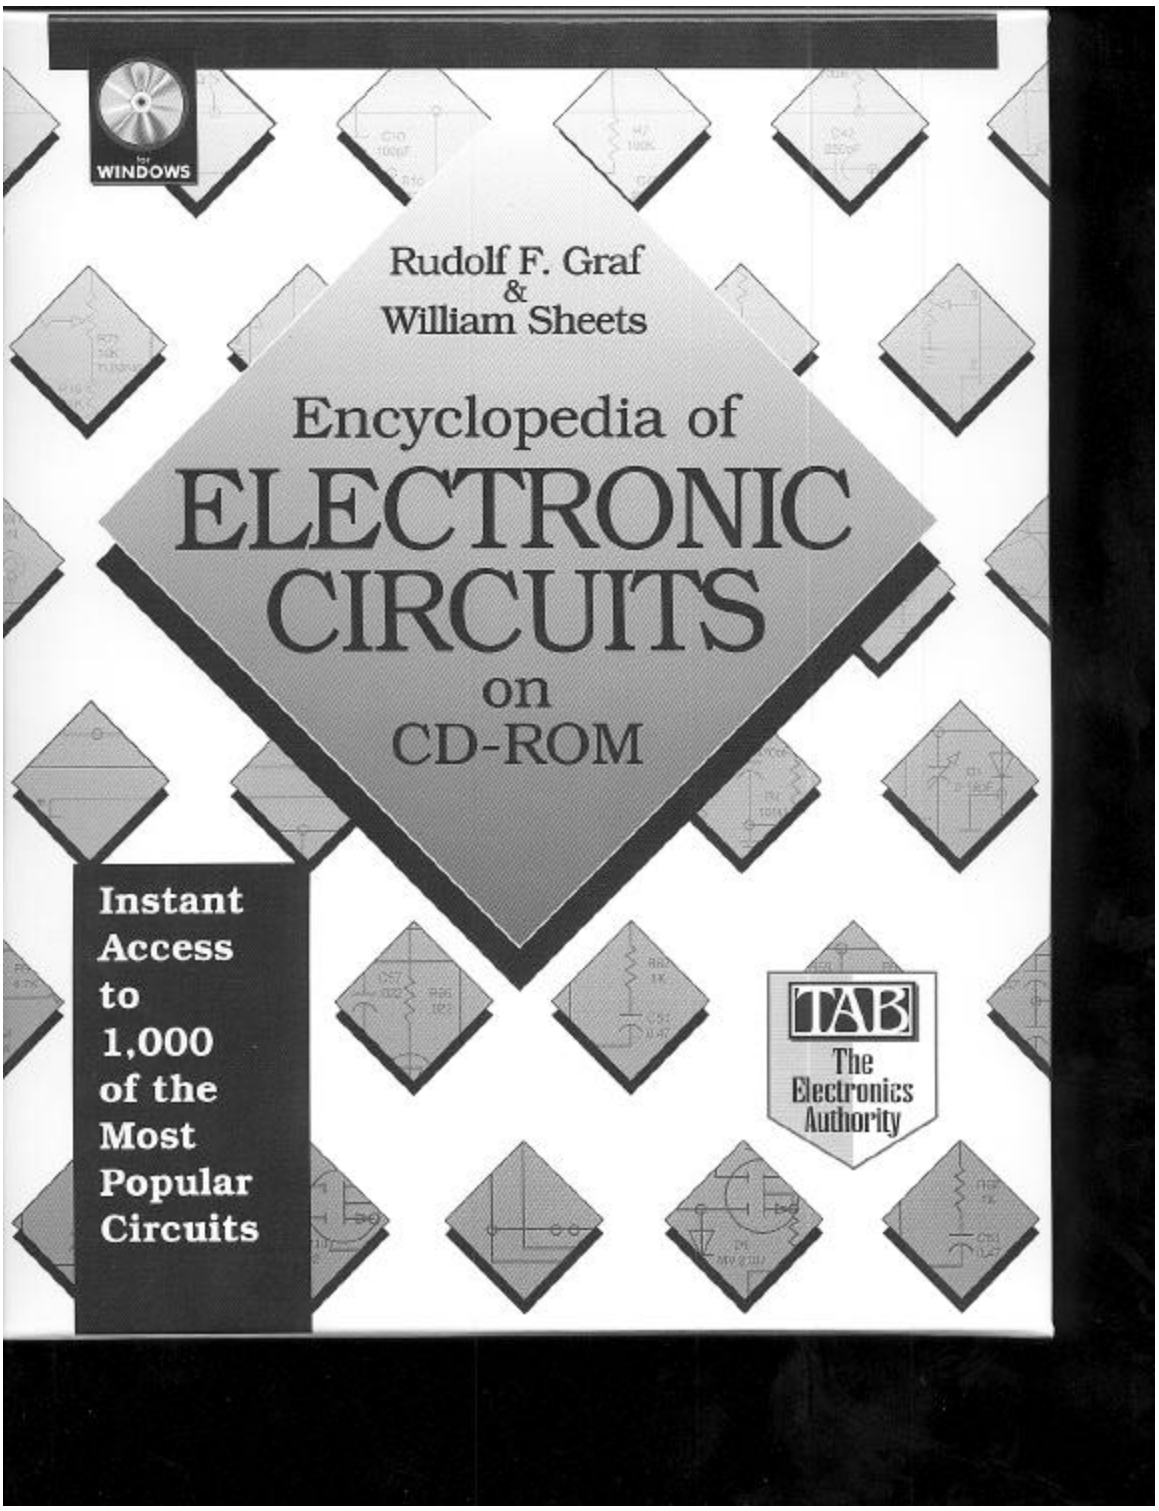
Jameco Part number 130500



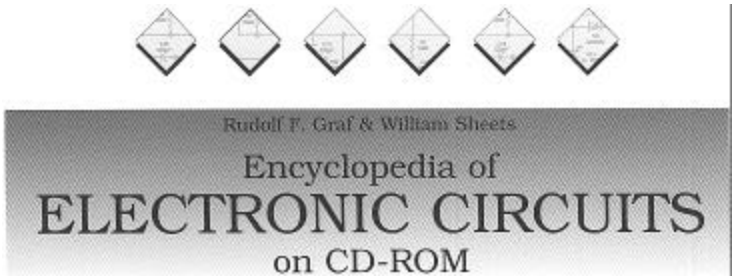
Jameco Part number 130500

An extensive library of 1,000 circuits from the bestselling, five-volume *Encyclopedia of Electronic Circuits*

"... a ready source to which to turn for just about any type of circuit you can imagine ..."
--MODERN ELECTRONICS

"... for professionals who need fast answers to specific design problems..."
--THE INDUSTRIAL AND PROCESS CONTROL MAGAZINE

"... truly an invaluable storehouse..."



--AMERICAN REFERENCE BOOKS ANNUAL

- Access this giant collection of circuits with schematic viewer
- Includes every type of electronic device
- Hand-selected by renown authors--Rudolf F. Graf and William Sheets
- Helps you design optimum circuits with less time and effort
- Fully researchable CD-ROM for quick, hassle-free exploration
- Ideal for small businesses, professionals, and hobbyists

Circuits include...
Alarm and security systems
Amplifiers
Computer-related
Converters
Decoders / descramblers
Detectors
Fiber optics
Generators
Lasers
Light and motor control
Measuring and testing
Modulators/demodulators
Oscillators
Receivers
Temperature sensors
Transmitter
Video
Window comparators
...and more!!
